DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, 23-28, 34, drawn to methods of producing a substance or mixture for use in spheroid formation and substances produced therefrom.

Group II, claim(s) 11-22, drawn to a method of producing an elongated spheroid.

Group III, claim(s) 29-33, drawn to methods of elongate spheroid production and kit therefor.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Methods of Group II and III do not require the use of the spheroid formed in Group I.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
